

# the school

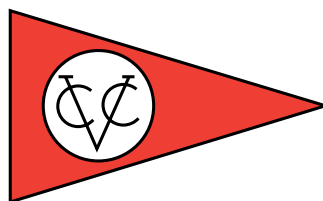

The Sailing School of Club Vela Calella, is recognized by the Catalan Sailing Federation and is located at the club house whose main activity is developed in the months of June, July and August.

We have as main objectives the teaching of sailing and the respect for the environment without forgetting the fun. The technical team is formed by qualified instructors resident in the area and familiar with the environment.

At our school we work according to a Standard system established by the official Catalan Sailing School and that applies to all recognized Sailings Schools. This system is designed for all sailing disciplines as well as the different specialities and allows students to sail in any associated school to complement their learning. It consists of different levels and as the student reaches the knowledge of each level they are certified, being able to show their knowledge in any of the Catalan recognized schools.
